* Because the blend price adjusted for location was at or below the Class III price in certain zones in some markets in the East North Central, West North Central, Mountain, and Pacific regions, handlers elected not to pool an estimated 1.4 billion pounds in April 1996, that normally would have been pooled under these orders. ^{1/} End-of-year figure. Remaining annual statistics are for all markets in effect during any part of the year, except for the Michigan Upper Peninsula market, for which all the data were restricted and thus excluded in 1992.

^{2/} Represents changes over the previous year. Percentages computed from unrounded numbers. Data for 1992 and 1996 have been adjusted to a 365-day basis before computing percent changes. Data for February 1996 have been adjusted to a 28-day basis before computing percent changes. ^{3/} Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1995-96, and for which the data were not affected significantly by marketing area changes; all markets are comparable. ^{5/} Average or total.

SUMMARY OF PACKAGED DISPOSITIONS OF FLUID MILK AND FLUID CREAM ITEMS 1/

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. Due to a change in classification procedures that was effective July 1, 1993, sour cream, yogurt, and eggnog are now reported on a used-to-produce basis. Previously, most orders reported data for these products on a disposition basis.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Light, heavy, and sour cream and cream dips.

5/ In addition to listed fluid milk and cream products, includes eggnog and yogurt.

6/ Represents changes over the previous year. Percentages are based on the data for all markets combined. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

7/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percent changes based on comparable markets, see tables 15 and 16.

8/ Percent changes have been adjusted for the different number of days in the two periods. The volume figures have not been adjusted.

*Due to the unusual price relationships and/or qualification circumstances in some markets in 1991-1995, handlers elected not to pool significant volumes of milk that normally would have been pooled under Federal milk orders. Because this milk would have been classified as Class III under the orders, the utilization in butter, cheese, and nonfat dry milk production for these years was affected.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

2/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products: e.g. cottage cheese, evaporated milk, dried products, and aerated cream; and milk, skim milk, and cream used in other food and non-food products. The total also includes dumped or spilled milk and plant loss.

3/ Represents changes over the previous year. Percentages are based on the data for all markets combined. These changes are based on pounds of butterfat, except for nonfat dry milk, which are based on pounds of skim milk. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

4/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percentage changes based on comparable markets, see tables 18 and 19.

5/ Percent changes are based on the different number of days in the two periods. The volume figures have not been adjusted.

SUMMARY OF PACKAGED SALES OF FLUID MILK ITEMS IN MARKETING AREAS DEFINED BY FEDERAL MILK ORDERS 1/

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Represents changes over the previous year. Percentages are based on the same group of markets comparable in both years. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

5/ Adjusted to eliminate variation in data to calendar composition and seasonality.

6/ Represents the data for all Federal milk order markets.

7/ Percent changes have been adjusted for the different number of days in the two periods. The volume figures have not been adjusted.

1/ Prices are for 100 pounds of milk of 3.5 percent butterfat content. Prices are listed generally for the major city in the marketing area; see footnotes on pages 40 and 41 for these locations.

2/ The fluid differential is the amount added to the Basic Formula Price to determine the Class 1 price. The Basic Formula Price is the base month Minnesota-Wisconsin price for the second preceding month updated with a product price formula. See Table 27. The fluid differentials shown for New England, New York-New Jersey, and Michigan Upper Peninsula reflect location adjustments. The differentials specified in the orders are: New England - \$2.52, New York-New Jersey - \$2.42; and Michigan Upper Peninsula - \$1.15.

3/ Effective July 1, 1995, the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, Greater Louisiana markets were merged to form the Southeast order (order #7). See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. The data for 1995 are for the Georgia market.

See footnotes on pages 42 and 43.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted.

2/ For those markets which have base-excess plans (see table 21), the prices represent a weighted average of the base and excess prices. For those markets which have multiple component pricing (see table 22), the prices represent the Basic Formula Price plus the weighted average differential price or producer price differential computed under the order.

3/ For the 22 marketing areas where it currently is in effect, this price is applicable to producer milk used to produce nonfat dry milk.

4/ Zone 1 (Boston). Price at 201-210 mile zone: Class I and blend, 72 cents less. Class I and blend price at Hartford, 10 cents less.

5/ New York metropolitan area. Price at 201-210 mile zone: Class I and blend, 72 cents less; Class II and Class III, 8 cents less.

6/ Philadelphia, Baltimore, and Washington, D.C. Price excludes a 6-cent direct delivery differential applicable to milk delivered to the Philadelphia area.

7/ Charlotte.

8/ Bristol, Chattanooga, and Knoxville.

9/ Zone 7 (Atlanta and Birmingham).

10/ Figures exclude, where applicable, Upper Florida, Southeastern Florida, Eastern South Dakota, Black Hills, and Western Colorado; some of the data used to weight the monthly prices are restricted. The individual Class I and blend price data for these markets are shown below. Class II and Class III prices are the same as the prices shown in the table for Carolina.

Marketing area	March				April			
	Class I		Blend		Class I		Blend	
	1996	1995	1996	1995	1996	1995	1996	1995
	-----Dollars-----							
Upper Florida	16.31	14.93	16.17	14.45	16.17	15.37	16.05	14.62
S. E. Florida	16.91	15.53	16.52	15.29	16.77	15.97	16.63	15.49
E. S. Dakota	14.23	12.85	13.41	12.43	14.09	13.29	13.56	12.21
Black Hills	14.78	13.40	14.56	13.20	14.64	13.84	14.52	13.29
W. Colorado	14.73	13.35	14.51	13.23	14.59	13.79	14.49	13.46

11/ The figures for 1995 are the weighted averages of the prices for the five merged markets.

12/ Zone II (Marquette).

13/ Individual handler pool. Blend prices are weighted average of all handlers.

14/ Zone 1 (Detroit). Price excludes a 10-cent direct delivery differential applicable to milk delivered to the Detroit metropolitan area.

15/ Cleveland and Pittsburgh.

16/ Zone 3 (Columbus). Class I and blend price at Cincinnati (Zone 4) 7 cents more.

17/ Indianapolis.

18/ Zone 1 (Chicago). Class I and blend price at Milwaukee (Zone 4) 9 cents less.

19/ Peoria.

20/ Base Zone (Alton). Class I and blend price at Carbondale (Southern Zone) and at St. Louis 9 cents more.

21/ Zone 1 (Minneapolis).

22/ Zone 1 (Des Moines). Class I and blend price at Rock Island, Ill., 7 cents less; and at Waterloo, 17 cents less.

23/ Zone 1 (Omaha).

24/ Kansas City and Topeka.

25/ Zone 1 (Oklahoma City). Class I and blend price at Springfield, Mo., 58 cents less.

26/ Zone 1 (Dallas). Class I and blend price at Houston, 54 cents more.

27/ Denver.

28/ Boise, Idaho.

29/ Salt Lake City, Utah.

30/ Phoenix.

31/ Albuquerque, Santa Fe, and El Paso.

32/ Zone 1 (Seattle and Portland).

33/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1995-96, and for which the data were not affected significantly by marketing area changes; all markets are comparable.

FOOTNOTES FOR TABLES 4 THROUGH 11.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. See footnotes on pages 40 and 41 for location at which price is reported. All averages are weighted.

2/ Figures for 1995 are the summation or weighted averages of the data for the five merged markets and also include data for the Paducah order. The handler formerly regulated under the Paducah order, which was terminated November 1, 1995, now is regulated under the Southeast order.

3/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1995-96, and for which the data were not affected significantly by marketing area changes; all markets are comparable. Note, for 1995, the data for Paducah have been combined with the data for Southeast. See 2/.

4/ Figures exclude, where applicable, Upper Florida, Southeastern Florida, Eastern South Dakota, Black Hills, and Western Colorado; some of the data used to weight the monthly prices are restricted.

5/ Data are a summation or weighted average of the Tampa Bay, Upper Florida, and Southeastern Florida marketing areas. The data are combined in order to mask the data for Upper Florida, which are restricted.

6/ In these marketing areas, milk was not pooled due to unusual price relationships. See "*" on page 4.

7/ The data for these marketing areas are combined in order to mask restricted data. See table 1 for complete marketing area name.

FOOTNOTES FOR TABLES 12 THROUGH 19.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, fortified, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Percent changes from February 1995 to February 1996 have been adjusted for the different number of days in the two months. The volume figures have not been adjusted.

5/ The "Year to Date" percent changes have been adjusted for the different number of days in the two periods.

6/ Effective November 1, 1995, the order regulating this marketing area was terminated.

7/ New marketing area. Data for the previous year are estimated based on the new marketing area.

8/ Comparable markets are markets where the orders were in effect the entire period 1995-96, and for which the data were not affected significantly by marketing area changes. Excludes Paducah; see 4/.

- 9/ Excludes New York-New Jersey.
- 10/ Figures adjusted to eliminate variation in data due to calendar composition.
- 11/ The data for this market are estimated.
- 12/ Data for 1995 are for January through October, see 4/.
- 13/ See table 12 for marketing areas included; excludes Paducah.
- 14/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. However, sour cream, yogurt, and eggnog are reported on a used-to-produce basis.
- 15/ Light, heavy, and sour cream, and cream dips.
- 16/ In addition to listed fluid milk and cream products, includes yogurt and eggnog.
- 17/ See table 12 for marketing areas included; excludes New York-New Jersey. Percent changes are based on the same groups of comparable markets; all markets are comparable.
- 18/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants, as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.
- 19/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products, e.g., evaporated milk, condensed milk, dried products, aerated cream, and skim milk equivalent used to fortify fluid milk products; milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss, and miscellaneous products.
- 20/ Percent changes over the previous year are based on the same group of comparable markets--markets where the orders were in effect the entire applicable two year period, and for which the data were not affected significantly by marketing area changes; all markets are comparable. These changes are based on pounds of butterfat, except for nonfat dry milk which are based on pounds of skim milk.
- 21/ The marketing areas in which milk was not pooled in February 1995 due to unusual price relationships were in these regions. See "*" on page 6.
- 22/ Restricted.
- 23/ The marketing areas in which milk was not pooled in March 1995 and 1996 due to unusual price relationships were in these regions. See "*" on page 6.

TABLE 20--PERCENTAGE OF WHOLE MILK EQUIVALENT (MILKFAT BASIS) USED IN THE PRODUCTION OF MANUFACTURED DAIRY PRODUCTS,
IN FEDERAL ORDER MARKETS, JANUARY 1996 TO DATE, WITH COMPARISONS 1/

1/ The orders regulating these marketing areas require that producers be paid on the basis of the weighted average differential, the price per pound for butterfat, and either the price per pound for protein, protein and other solids, or nonfat milk solids. 2/ The Middle Atlantic and Pacific Northwest orders require that producers be paid on the basis of nonfat milk solids. The Chicago Regional, Upper Midwest, Eastern South Dakota, Iowa, and Nebraska-Western Iowa orders require that producers be paid on the basis of other solids. 3/ Weighted average differential price is for "base milk." 4/ Instead of a weighted average differential price, this order calculates a producer price differential. 5/ For this order a fluid carrier price is determined. For March and April, these prices are \$4.92 and \$4.96 per hundredweight, respectively. 6/ The somatic cell adjustment rates per 1000 somatic cell count for this order for March and April are \$0.00069 and \$0.00072, respectively. 7/ Restricted.

TABLE 23--FACTORS USED IN THE COMPUTATION OF CLASS III-A PRICES IN FEDERAL MILK ORDER MARKETS,
JANUARY 1996 TO DATE ^{1/}

July							
August							
September							
October							
November							
December							

^{1/} This pricing provision is currently in effect in 22 marketing areas. See "Summary of Major Order Actions, December 1993" in FMOS-399 and table 2 in this report for the affected marketing areas. This price is applicable to producer milk used to produce nonfat dry milk.

^{2/} "Dairy Market News," AMS.

^{3/} This price series is used in the computation of the modified yield factor and Class III-A Prices in all but 3 of the 22 affected marketing areas. See ^{1/}.

^{4/} This price series is used in the computation of the modified yield factor and Class III-A Prices in the western marketing areas. See ^{1/}.

^{5/} 9 less (0.4 divided by the applicable nonfat dry milk price).

^{6/} (Butterfat differential times 35) plus [(applicable nonfat dry milk price less 12.5 cents) times the applicable modified yield factor].

^{7/} See ^{1/} to find the marketing areas that use this nonfat dry milk price series.

^{8/} New England, New York-New Jersey, and Middle Atlantic also use a seasonal adjustment in the computation of Class III-A prices.

TABLE 24--PRODUCER DELIVERIES OF MILK USED IN CLASS III-A BY HANDLERS REGULATED UNDER FEDERAL ORDERS, BY REGION, JANUARY 1996 TO DATE

Region	January 1996	February 1996	March 1996	April 1996	May 1996	June 1996	July 1996

1/ Based on prices at test as reported in "Agricultural Prices," NASS; converted to a 3.5 percent test by using the butterfat differential specified in Federal milk orders for conversion of the blend prices that vary from 3.5 percent. 2/ The Minnesota-Wisconsin (M-W) price series is the average price reported paid to producers for manufacturing grade milk f.o.b. plants in Minnesota-Wisconsin as reported by NASS. Effective with the May 1995 price, the Basic Formula Price replaced the M-W price series, which establishes minimum prices under all Federal milk orders. Prices shown for January through April 1995 are the M-W price series. Prices shown for May through December 1995 are the Basic Formula Price. The average price combines these two price series for the applicable periods. 3/ "Agricultural Prices," NASS. 4/ Animals sold for dairy herd replacement only. 5/ Figures are published for January, April, July, and October only. 6/ Mid-month price. 7/ Includes beef cows and cull dairy cows sold for slaughter, but not dairy cows for herd replacement. 8/ Pounds of 16 percent mixed dairy feed equal in value to 1 pound of milk sold to plants. The methodology utilizes major raw feed component prices from the NASS agricultural commodity prices published monthly.

Summary of Federal Milk Order Actions, March 1996

There were no final actions effective during this period.

Summary of Federal Milk Order Actions, April 1996

Suspension:

Central Arizona - April 1 (61 FR 17561, 4/22/96). This action continues to suspend certain provisions of this order during April 1, 1996, through March 31, 1997. The continued suspension eliminates the requirement that a cooperative association ship at least 50 percent of its receipts to other handler pool plants to maintain pool status of a manufacturing plant operated by the cooperative.
